

Life's meaning Journal *Second edition*

The quotes which are included in this journal first appeared not in print but on the internet in the form of a daily quote for me to use for life's meaning for today.

By meaning I refer to the fact that every day our life unfolds another aspect or element of True Self emerges if only we stop and take the time to recognise what it is that is being reflected back to show who we really are and discover another facet of our being.

In creating the book "Life's Meaning for Today" I took each of the various days quotes and combined them into one printed and on-line book making it possible to select a page at random and read a statement which reflects back an important element of your True Self operating at that moment in your life.

The question will emerge for many as they read the quotes

"how do I respond to events as I see them from a new perspective?"

My answer is to allow yourself time to reflect on what you are now experiencing from an expansive way of thinking about and relating to your daily waking life.

Enjoy using this journal at many levels as you make the necessary changes to step forward to the next unfolding stages of your future life.
